EXPERIENCE

Scout (Student-Led Design Org) **September 2026 - Present**
Senior Designer *Boston, MA*

- Spearhead end-to-end brand identity development and website design for Rush, a Northeastern-founded energy drink startup.
- Direct design strategy across branding and web design workstreams, overseeing creative direction, reviewing deliverables, and coordinating a cross-functional design team to ensure quality control and visual consistency across all brand touchpoints.

ConsumerDirect, Inc. **June - August 2026**
People Operations Intern *Irvine, CA*

- Launched 4 LinkedIn Life pages (Behind ConsumerDirect, Culture, Industry & Sales, Early Career) to boost employer branding, driving a 71.5% increase in page views over 30 days (114 desktop / 227 mobile views on Life).
- Redesigned and standardized the job description template and authored ~100 job descriptions across departments for 2026.
- Founded and launched the company's first mentorship program building a dedicated website using HTML and GitHub, and designed comprehensive training presentations to prepare career mentors and orientation buddies for their roles.
- Built a Slack channel and canvas for new hires, centralizing onboarding resources to support a smooth first week.
- Designed the company's org chart in Figma, creating a reference used in company audits and leadership across departments.

Scout (Student-Led Design Org) **January - April 2026**
Junior Developer & Designer *Boston, MA*

- Collaborated within a 10-person cross-functional team to redesign and rebrand Superpower Mentors' website, conducting user research and prototyping that contributed to a reported reduction in program dropout rates from 30% to 0%.
- Translated user research insights into personas, user flows, wireframes, and a clear sales funnel across a six-page site redesign, aligning decisions around the needs of families, mentors, and partner schools as key audiences.
- Designed high-fidelity, handoff-ready website prototypes and component systems, contributing to visual identity refinements, UX consistency, and developer-friendly documentation that streamlined collaboration between design and developer teams.

Oasis (Student Software Development Club) **September - November 2025**
Project Series Member *Boston, MA*

- Collaborated in a 6-person team of student developers, working alongside an Oasis Mentor to design and build Groove Scout, a full-stack web platform, dedicating 3+ hours per week over a semester to feature development and testing.
- Drove product development by defining features that enabled users to discover, buy, and create listings for vinyl records.
- Built full-stack technical skills using Git, Figma, CSS, JavaScript, Node.js, and React through hands-on project development.
